Buying Vs. Building

Reach Us

THE BACKBUCKLE SAGA

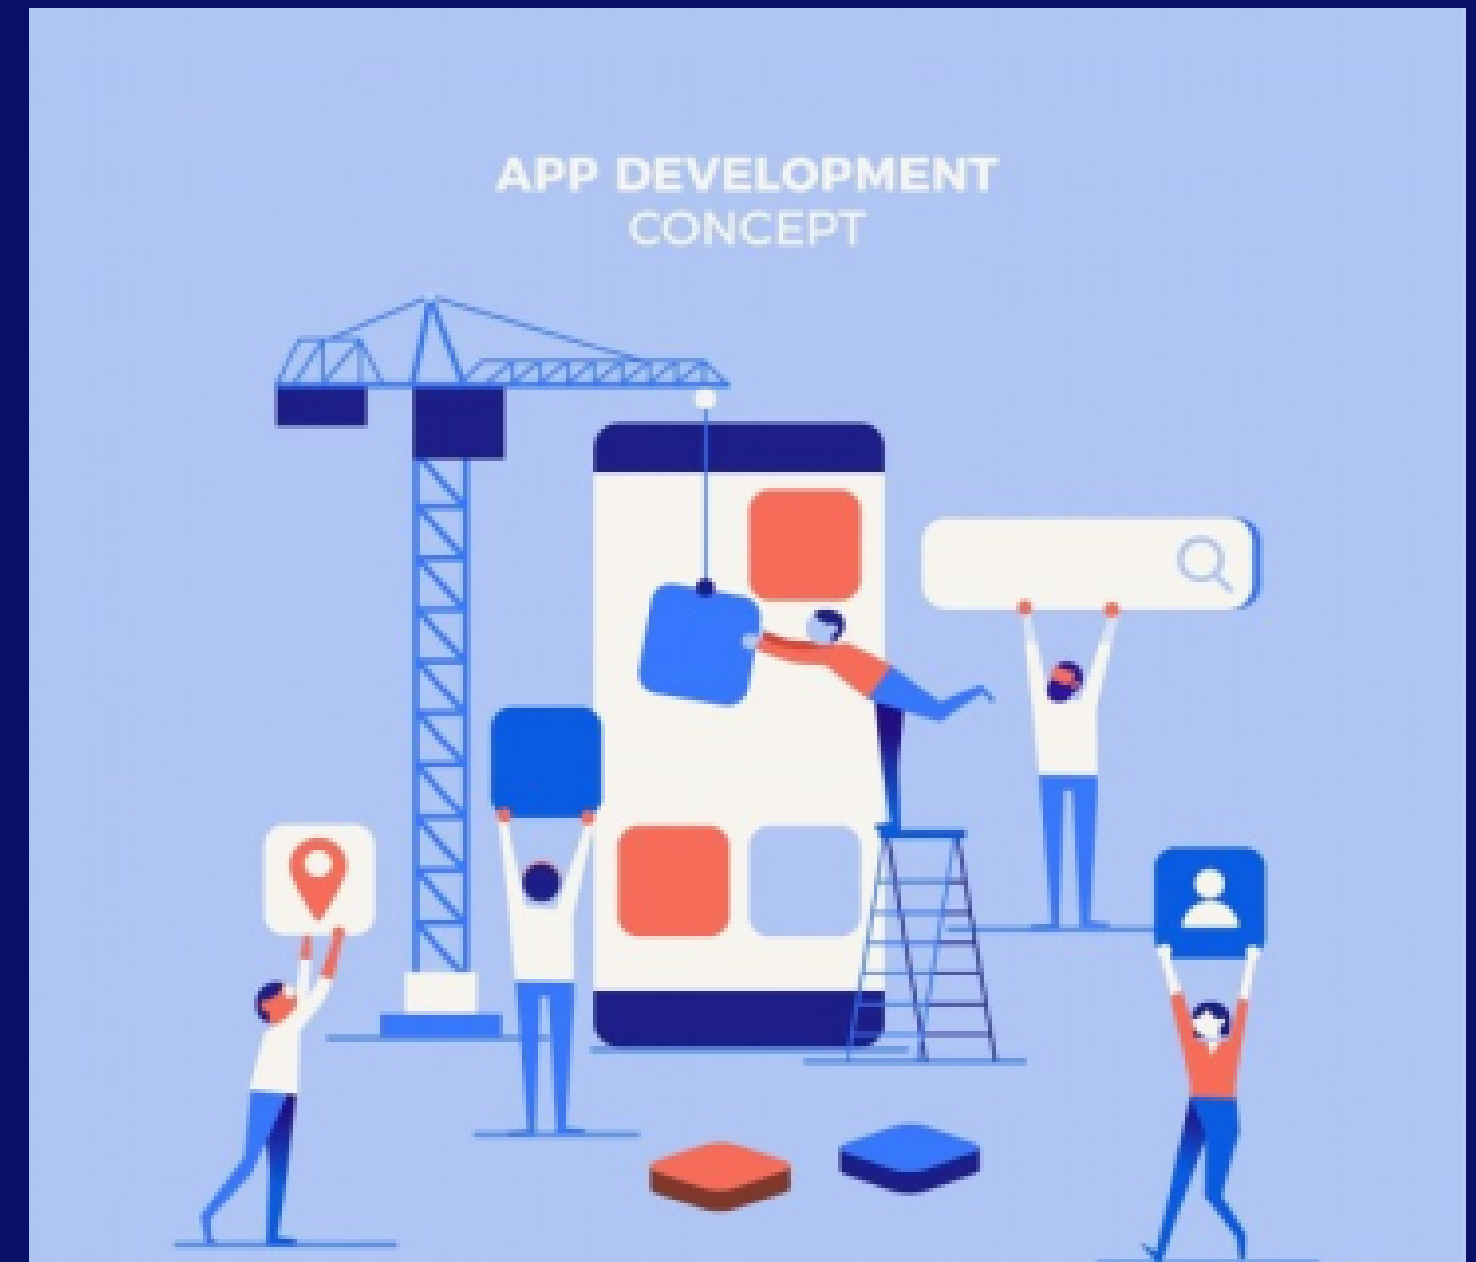

- A Feature-as-a-Service (FaaS) Platform, which is beyond BaaS
- Created over 10,000+ hours of development efforts
- By industry experts and startup enthusiasts
- To revolutionize the App Development process

The Problem

Developing Apps Today

- Building Web, IoT, Mobile App from scratch
- Maintaining and scaling the business is not easy
- Focus shifts from core business
- Lack of Innovation
- Time, money and resources are lost in excess

The Solution

The BackBuckle Way

- A boon for people making it easier to adopt the Lean Methodology and hit the market in short time
- Ready-to-integrate features make the product journey smoother
- Sector-agnostic features and services to develop any app's backend
- 25+ essential features to enrich your user experience
- Developer-friendly way to build apps (Web, IoT, Mobile)
- Rich insights and analytics to monitor

**THE ONLY WAY TO WIN IS
TO LEARN FASTER THAN
ANYONE ELSE.**
